

**603 KAR 4:040. TODS signs; placement on public roads other than interstates or parkways.**

RELATES TO: KRS 189.337

STATUTORY AUTHORITY: KRS 189.337

NECESSITY, FUNCTION, AND CONFORMITY: KRS 189.337 requires the Department of Highways to establish standards for the placement of signs within highway right-of-way of a public road. The Transportation Cabinet has promulgated 603 KAR 5:050 which deals with all traffic control devices by incorporating the Manual on Uniform Traffic Control Devices by reference. The Manual on Uniform Traffic Control Devices allows for the erection of tourist oriented directional signs (TODS) to provide directional information for tourist activities offering goods and services that are of significant interest to the traveling public within certain parameters, but requires each jurisdiction to establish policies for those areas not covered in the manual. This administrative regulation sets forth the criteria to be followed in the erection and maintenance of TODS. The criteria included in this administrative regulation are consistent with the guidelines set forth in the Manual on Uniform Traffic Control Devices.
